

MIG/MAG-welding

CastoMIG 3500 C

Digital controlled Standard-Inverter for best welding results and multiple applications

*Versatile
Modular
Future-oriented*

- Easy use
- Easy transport
- Program control
- Integrated Castolin- protection- and repair-programs
- MIG/MAG and MMA welding
- Mounting, workshop and production

WELDING

**Castolin Eutectic®
Eutectic Castolin**

CastoMIG 3500 C

Versatile

CastoMIG stands for excellent welding-properties, high Quality and is used in workshops, mounting, production and automation.

Useful accessories complete to an individual usable machine.

Near all other programs CastoMIG supports the Castolin consumables for protection and repair.

Thereby you got additional the best preconditions for your maintenance works.

Modular

CastoMIG 3500 C can be customized to your needs due to its design. Equal of mounting, workshop or automation and robotics, CastoMIG fulfils your requirements as needed.

Future-oriented

CastoMIG 3500 C is the compact progression of the Castolin-CastoMIG-series and offers you versatile skills by flexibility, reproducibility, optimized programs for best welding results as well as EN 1090 support.

Technical Data	CastoMIG 3500 C
Mains voltage +/- 10%	3x 400V
Welding current range	10 - 350 A
Duty cycle:	
10 min / 40°C (104°F) 40 %	350 A
10 min / 40°C (104°F) 60 %	300 A
10 min / 40°C (104°F) 100 %	250 A
Open circuit voltage	47 - 59 V
Working voltage	14,5 - 38,8 V
Wire speed	1 - 25 m/min
Protection class	IP 23
Markings	CE S
Dimensions / height	497 mm
Dimensions / wide	300 mm
Dimensions / length	747 mm
Weight	36 kg

Conformity-package EN 1090

Welding-process-specifications for executive-class 1 and 2 up to S355 are available. This relieves manufacturers of support-structures the after 01.07.2014 valid EN-1090-certification.
